

aiAnalytics is a turnkey solution for collecting and analyzing vision data from a large number of standard 2D & 3D vision systems. It easily connects to existing vision systems using a variety of interfaces to gather part inspection, metrology, image, & point-cloud data. This data can be explored from any location using desktop, web, and mobile application.

- **Easily connect** to multiple vision system using standard interfaces.
- **Centralized storage** of measurement, image, and point-cloud data from multiple vision systems.
- **Massive storage capacity** to store years of data in local and/or cloud database.
- **Quickly search** inspection results using date-time, product, serial number, disposition, etc.
- **View result** by job, date, shifts, product, and time range.
- **Trending charts** for product yield, measurement variation, and process variables.
- **PDF and CSV reports** and bulk export of image and point-cloud data.
- **Monitoring for production quality**, system performance, and vision system health.
- **Customizable notification** for key events using text messaging and email.
- **Cost effective** solution paired with excelled customer support.

- Single analytics system to support multiple vision systems.
- Use with new and/or existing vision systems
- Quickly connect vision systems using TCP/IP
- Configure multiple products for the same system
- Up to 10 TB of storage to store years of inspection data

- Review results from all vision systems in one place using desktop, web, & mobile applications.
- Install desktop application on any Windows workstation.
- View multiple images associated with a single part. Interactive pan, zoom, and save supported.
- Integrated 3-D point-cloud viewer with pan, zoom, and rotate capabilities. Export to STL file.
- Dashboard view to provide live view and summary data.
- Set data retention policy to automatically delete older data.

aiAnalytics Model	100	200	500	1000
Vision Systems Supported	1	2	5	Any
3-D Vision Systems	No	Yes	Yes	Yes
Database Storage Capacity	500 GB	1 TB	4 TB	20 TB
Server Hardware	Micro PC	Micro PC	Micro PC	Server
Cloud Storage	No	Subscription	Subscription	Subscription
Desktop Viewer Clients	Unlimited	Unlimited	Unlimited	Unlimited
Charts, Reports, & Events	No	Yes	Yes	Yes
